Can't believe we are now in March – the days are flying by – we could certainly do with another 6 hours in every day. Our restoration of Château de Saugé continues with vigor and we are once again filming a new series of Escape to the Chateau DIY with Channel 4 UK TV which we believe will be broadcast around October 2020.

The Vintage Tearoom continues to extend its customer base – we are so grateful for our clientele spreading the word and introducing new faces – it's wonderful to make new friends and so glad everyone is enjoying the space and the Château. Our Traditional Afternoon Teas certainly seem to be popular. We intend to extend our Opening Hours at the beginning of May to take advantage of the good weather and our beautiful Terrace which we are about to start extending to double our seating space and which will provide better views of the gardens and pond.

We are also developing an Arts & Crafts Shop which will showcase/sell works of local crafters and Artists i.e. Art, Pottery, Jewelry, Photography etc. Please get in touch if you wish to showcase any of your own creations through Château de Saugé. We hope to be able to commence offering these gifts within our Tearoom /Shop around Spring.

We have also agreed to stock and externally sell branded Premium Teas (Alveus Tea) – these should be available very soon, with our branded Tea Caddy's offering discounts on refills.

New Opening Hours – New Menu

Bring on the sunshine and extended opening hours at the Château. New extended hours will be announced soon together with a new menu for lunch and evening dining.... Watch this space.
